Overall, we have increased the enthusiasm and participation of children attending sports activities from Nursery to Year 6. We opened up various clubs for lower years to give all children opportunities to attend clubs that they may be interested in. (Following analysis of pupil and parent questionnaires). We have up-skilled staff in planning and assessment- leading to good delivery alongside specialist coaches. We intend to compete in a variety of different sports next year within our cluster and support from Kyle Adams. We have carefully targeted children for certain clubs that we feel have had a positive impact on their health (both mental and physical) and that they can sustain this within their academic settings.

We intend on building on these positive attitudes towards sports and to sustain these in the future.
